OBJECTIVE

Utilize my ability to adapt to fast changing priorities and quickly master new tasks to switch careers into the programming field as a Level 1 Engineer. I have a Bachelor of Science degree in Graphic Design and 14+ years working in an environment with competing deadlines and a focus on teamwork to achieve goals.

SKILLS

Beginner Javascript (ES6, ES7)	Beginner HTML5	Microsoft Office
Beginner Python 3	Beginner CSS3	Adobe Creative Suite
Beginner VCS (Git)	React JSX exposure	Dreamweaver

EXPERIENCE

RECENT LEARNING

· The-Other-Ansible: a chatroom project exploring front end and back end JS and React JSX. Project included creating the HTML and CSS page as a template and then adding functionality to the page through JS. Included set up of a REST server API using nodeJS and Express. Once basic functionality had been established I began the exercise of converting the site to ReactJSX.
